

TO : All MICT Customers, Contractors, Suppliers, Visitors and Other Port Users

SUBJECT : Correct Type of High Visibility Safety Vest and Work Wear

As part of our continuing efforts to reduce the risk of injuries involving cargo-handling equipment and other moving vehicles inside the terminal, please be reminded that only personnel wearing the correct safety vest and work wear are allowed to enter the terminal premises. Accepted safety vests and work wear (i.e., upper garment) must comply with the requirements specified below. Examples of what is allowed and prohibited inside the terminal premises are also shown below for your reference.

REQUIREMENTS		
1. Must be of highly visible color (luminous orange, green or yellow) and provides 360° coverage around the torso.		
2. Must have at least a waist-level horizontal reflective strip that goes around the vest (strip should be at least 2 inches wide)		
3. Must have 1 vertical strip on each side of the chest area passing over the shoulders and down to the waist area (meeting the horizontal strip)		
4. Must have at least 1 horizontal reflective strip around the arm (for long sleeves work wear)		

Thank you for your cooperation in ensuring the safety and well-being of all.

Christine A. Naluz
HSE Head, ICTSI-MICT
