

# The ICTSI app now offers enhanced security.

## BIOMETRIC AUTHENTICATION

The new biometric authentication feature ensures that **only the owner of the device will have access** to the information that the ICTSI app contains.

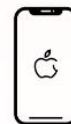

This security feature is available to **Android and iOS** users.

The user must **update the app to the latest version** in order for the feature to be available.

**Biometric authentication methods** available:

- Face ID
- Touch ID

- Face
- Fingerprint

For more detailed instructions on the ICTSI App's new biometric authentication security feature, please click on the following links:
