

MICT ADVISORY

Official Manila International Container Terminal Partner Advisory

01/13/2022

ADVISORY NO. 2021-1687

As most of you may have heard, parts of Roxas Boulevard will be closed on January 15th for Emergency Repairs, adding an unfortunate but necessary burden on the logistics supply chain.

The Truck Appointment Booking System (TABS) was created not only to ease traffic during peak hours but also to minimize disruption and support the daily logistics demands in times like these. Historically, weekends and Monday slots are not fully utilized and as such, we implore everyone to maximize the available booking hours during these off-peak periods to fulfill all your delivery commitments.

Please find related news articles for your full guidance:

[MMDA: Southbound lane of Roxas Blvd to be closed to traffic for 2 months starting Jan. 15 – Manila Bulletin \(mb.com.ph\)](#)
[Southbound part of Roxas Blvd to be closed to traffic due to repairs - MMDA | Claudeth Mocon-Ciriaco \(businessmirror.com.ph\)](#)

When all stakeholders work together, we can minimize the effects this road improvement project may have on our operations.

Many thanks,

MICT Management
