

# MICT ADVISORY

## Official Manila International Container Terminal Partner Advisory

3/15/2020

ADVISORY NO. 2020-1072

To All MICT Shuttle Service Users:

As part of our compliance to DOTR guidelines for the management of emerging infectious disease, we will be implementing social distancing in our shuttle services.

This will mean that fewer passengers will be accommodated at a time as only half of the shuttle's full capacity will be used. Adjust your arrival time at our pick up location as you may encounter longer waiting time before riding the shuttle. Everyone is expected to be cooperative of this and other precautionary measures that we are practicing at our terminal.

These guidelines will take effect immediately and shall be applicable until medical concerns have been lifted by proper health authorities.

Please share information to team members without email access.

Many thanks,

MICT Management
